**Be prepared to challenge your preconceptions of bulk packaging....**

**[www.rebul.co.za](http://www.rebul.co.za)**

- You need to pack your goods for transit or storage.
- You're looking for more than corrugated cartons can offer, but wooden crating is not the answer you're looking for.
- You care about environmental issues, so it must be readily recyclable, and if possible reusable.
- It must protect your valuable goods well, but must also be light, so you can maximise your load, yet strong enough to stack in your store.
- It must be easy to assemble, and not take up too much space when not in use.
- It must be custom sized for your goods, and offer security against pilferage.
- You need all this, but above all you need to reduce your total cost in the supply chain.
- You know it's too much to expect to find something that will meet all these criteria.

**The Rebul Pack is used in diverse market sectors including:**

Automotive components, Artwork (sculptures, painting and curios), Biomedical Engineering, Electronics, Film making, Foodstuffs, Freight contracting, Furniture, Glassware, Machinery manufacturing, Pharmaceuticals, Printing, Seafood, Telecommunications, Textiles.

**The Rebul Pack is exactly what you are looking for**

**Trophy Winner Goldpack Awards 2001**

**Features**

- Robust and rigid
- Light in weight
- Significant product protection
- With or without integral pallet base
- Custom made sizes
- Delivered in kit form
- Easy assembly with no tools
- Filled from top or side
- Disassembled for storage after use
- Ideal for all freight modes
- UN certified for Group III commodities for airfreight (Certificate Serial No. CT1393)
- Fully recyclable
- Re-usable

**The Rebul Pallet**

- Fully recyclable
- Light in weight
- Custom made sizes
- Ideal for air freight
- Performance range to suit load criteria

**Inserts, Blocks and Fillers**

Paper Honeycomb is a shock absorbing material, which is widely used as a completely recyclable alternative for product separation and location. High compression strength and good thermal insulation properties, along with flexible design offer intriguing potential.

**Design Optimisation**

Some goods have some very specific demands. Rebul can assist you with the design of specialised packaging engineered to give you the exact outcome you require.
